

Anton Björkman

Technical Consultant & Data Management

Profile

A curious software developer who is passionate about solving problems. I enjoy diving into details of systems and figure out how they work. My greatest strengths are that I am a good listener and take on challenges in a structured way.

Employment History

Technical Consultant at APSIS International AB, Malmö

June 2019 — Present

Consult customers with their integrations. Develop customer-specific applications. 3-line support: Supporting customers with the platforms. Investigate and troubleshoot the platforms. Escalating errands to R&D.

Labbassistent course Multi-threaded at Malmö University, Malmö

March 2019 — June 2019

IT-Helpdeks at Malmö University, Malmö

May 2018 — Present

Helps students with their IT problems, such as connecting to the Internet, Word documents, change password and etc.

Mentor at Malmö University, Malmö

January 2017 — February 2018

Projects

Writing articles for APSIS One Developer Hub, APSIS

I was given the task to write articles for the new Developer page. This led me to test the new functionality of the APSIS One APIs, reporting errors and investigating how the system was acting.

Re-design the old API Documentation for APSIS Pro, APSIS

My first project at APSIS was to re-design the old API Documentation. The old documentation for APSIS Pro had the old colors and was not up to date.

Internet of Things, Malmö University

The project is about collecting data from different devices, and then visualizing this on a website. AWS and Javascript were used to create this web-app.

Education

Bachelor of Science in Computer Science, 180 credits, Malmö University, Malmö

August 2014 — May 2019
